
Title: Royal Britannian Guard

Author: Theo, Royal Historian

At the behest of the
Ruling Council, I, Theo
Leopold III, Royal Scribe
and Historian of
Britannia, am hereby
charged with preservation
and recording of deeds
performed by the
Royal Britannian Guard.

Time in this ledger is
denoted in the Britannian
fashion as well as the
calendar used in the land
of our founding Lord.

Minoc Infested with Rats
(Dec 394, 7-30-05)

After learning of an
outbreak of the plague in
Minoc on the Felucca
facet, The Royal
Britannian Gaurd was
summoned by Cort Malic
to Castle Britannia. The
Guard, aided by the
Healer Raymoor of
Vesper, discovered a
cure.

The Guard divided into
two units, one sent to
Felucca Minoc to clear
the infestation of rats,
the other to Destard to
collect a rare fungus
necessary for the
antidote.
Both missions were
successful and the
antidote prepared. The
guard then escorted the
shipment from Vesper to
Minoc without incident
where the medicine was
dispersed to the infected

citizens. Afterwards,
members of the Royal
Britannian Guard stepped
forward with clues
discovered in
Minoc.

A summary of Clues is
listed on the next page:

Summary of Clues

-The plague was not of
natural origin but magical
induced into the
rats.

-Ratrex ChitterSquak was
leading the rats but
seemed to be working for
someone by the name of
Ractus Famul.

-There is a hidden
breeding grounds of
the special rat that
carries the disease.
